

# VISION

Together we can eliminate hunger in Malaysia.

# MISSION

We're Malaysia's pioneering food bank dedicated to rescuing and redistributing quality surplus food to the people who need it most.

## WHO WE ARE

The Lost Food Project (TLFP) is a nonprofit organisation in Malaysia that rescues quality, nutritious food that would otherwise end up in landfill, and redistributes this food and other essential items to those who need it most – regardless of religion, gender, age, disability or ethnic group.

To date, TLFP supports:

**55 charities**

(>6,700 pax)

**7,500 families**

(>33,000 pax) in PPR projects in Kuala Lumpur, Klang Valley and Johor Bahru

# WHAT WE DO

## HUNGER

99.7% of children in low cost flats (PPR) live in relative poverty, whilst 7% live in absolute poverty in Malaysia. TLFP currently provide an average of **33,000 meals** per week to PPR residents and charities that are most in need.

## FOOD (& NON-FOOD) WASTE

3,000 tonnes of edible food is thrown away each day in Malaysia. TLFP currently rescued over **4,500,000 meals** since 2016 and non-food products like personal and hygiene care, which would otherwise end up in landfills.

## CLIMATE CHANGE

The Malaysian government has pledged to achieve 45% CO2 reduction by 2030. TLFP currently prevent a weekly average of **19 tonnes of greenhouse gases** from entering our atmosphere by diverting food waste.

## OUR IMPACT TO DATE

**1.5 million kg**

FOOD RESCUED

**4.5 million**

MEALS PROVIDED

**3.75 million kg**

CO2 SAVED\*

*\*equivalent of 9.38 million bathtubs of CO2*

# TLFP TARGETS 12 OUT OF 17 UN SUSTAINABLE DEVELOPMENT GOALS

**FEED THE HUNGRY  
NOT THE LANDFILL**

**FEED THE HUNGRY  
NOT THE LANDFILL**
