SELANGOR “GATEWAY TO ASEAN”

Date : 6 – 12 March 2022
Venue : Dubai, UAE
Website : www.malaysiaexpo2020.com

Selangor has formulated its Smart State Vision to achieve a sustainable ecosystem that will benefit the people, businesses, and environment while boosting the economy.

Due to this vision for the future of Selangor, 12 domains have been identified, which include energy efficiency and zero-emission policies, circular economy, recycling, waste management, and waste-to-energy projects. In addition, renewables will play an even bigger role in the future. Thus, sustainability aspects are one of the main agendas to make Selangor a Regional Smart State by 2025.

At Expo 2020, Selangor's strength and sustainability efforts will be at the forefront to push for investments in key priority sectors

Let's get in touch so that we can discuss your investment in
Selangor

THANK YOU!
