LEADER IN SUSTAINABILITY

OUR SUSTAINABILITY AMBITION

SBTi validated

30%

**less CO₂ emissions in RTK
(Revenue Ton Km)**

by 2030 compared to 2019

Above EU mandate
(6% SAF on EU departures)

10%

SAF in 2030

as percentage of total fuel

AFKL was among the first European airlines to have our decarbonization plan validated by the Science Based Targets initiative (SBTi).

This validation confirms that AFKL has a concrete, science-backed strategy to reduce emissions in line with the Paris Agreement, aiming to limit global warming well below 2°C.

<https://sciencebasedtargets.org>

AFKL DECARBONIZATION STRATEGY

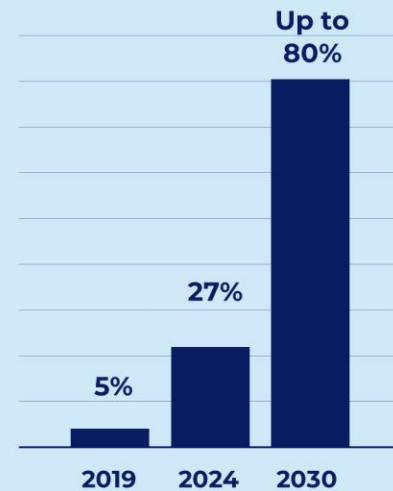

1

Accelerating fleet renewal

Latest generation aircraft reduce CO2 emissions per passenger km by up to 25% compared to previous models. We invest €2 billion yearly in fleet renewal.

Next gen aircraft in our fleet

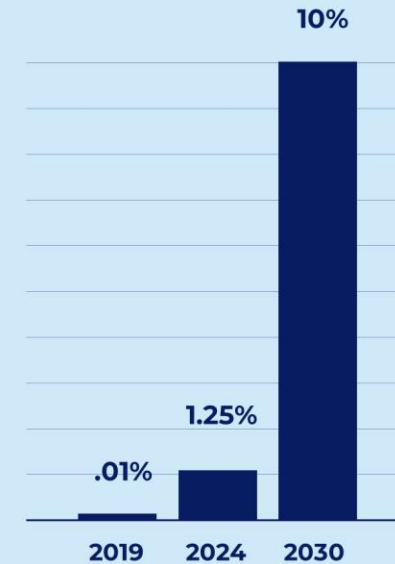

2

Being a leading player in SAF

Among the top SAF users worldwide, consuming 10% of global SAF.

SAF Incorporation

AFKL DECARBONIZATION STRATEGY

3

Ongoing operational measures

We're continuously focused on operational efficiencies, which could enable up to 10% CO₂ savings¹

In flight measures

Optimized flight paths, weight reduction, single engine taxiing

Ground operations

Electrification of ground handling vehicles, optimized taxi and ground movement

4

Expanding Intermodality

By providing train or bus alternatives to short-haul flights, we're setting an industry standard for other airlines.

Air France

Train and bus connect to 40+ cities. French domestic flights are replaced by train for journeys under 2.5 hrs.

KLM

Air & Rail connections are offered between Antwerp or Brussels and Amsterdam Airport Schiphol.
